Technical Sheet

Product ID

ACT Brite Crystals (HS code: 252 321 0000)

Product Description

Brite Crystals is an exceptionally durable and anti-slip swimming pool and spa finish that is a unique blend of insoluble coated Silica Quartz, silica sand and polymer modified White Portland cement.

Ingredients

- White Portland cement 52,5. The cement strength after 2 days: MPa 33, 28 days: MPa 57.
- Crystals sizes: 0,8 – 1,2mm, in various colors
- Silica aggregate: 0,8 – 1,2mm - Silica fine sand: 0,25mm
- Inorganic Pigments: ratio varies 0,75% to 1,5 %
- Polymer: saponification resistance, exhibit improved adhesion, flexural strength in bending, deformability and is easy to process

Packaging / Transport

- 25kg bags +/- 2%, 42 bags on 1 euro pallet, weight: 1050kg.
- Empty pallet weight: 25kg. Pallets are stackable.
- 20' container = 20 pallets = max. 21 500kg.

Storage

Store all ACT products inside in a dry and controlled environment.

Shelf life

12 month from manufactured date.

Warning

Use suitable protective equipment when handling and mixing.
